DUAL-CONNECTION FUNCTION (One-to-Two)

1. Connects to two mobile phones simultaneously, enabling seamless switching between devices.
2. Double press the power button to redial the last call. Long press to reject incoming calls. Short press to play or pause music.
3. Music playback automatically switches to whichever phone is currently playing. Incoming calls from either connected phone can be answered or ended in sequence.

FUNCTIONAL EXPLANATION DIAGRAM

- ① Battery Compartment
- ② Volume Up / Previous Track
- ③ Volume Down / Next track
- ④ 3.5mm Audio Input Port
- ⑤ Power ON / Power OFF / Play / Pause
- ⑥ LED Indicator

OPERATION INSTRUCTIONS

Battery Replacement

Remove the Battery Cover ① located on the left earpiece. Place 2x AAA batteries into the battery compartment of the headphone. Make sure that the battery polarity is correct.

Pairing with a Bluetooth Device

1. Press and hold the Power button ⑤ for about 2 seconds to turn on the headphone. The indicator light will flash red and blue alternately.
2. Turn on the Bluetooth function of the device you wish to connect (such as a mobile phone, car stereo, PC, etc.), search for available devices, and select "XTRONS" to connect.

Once successfully connected, the indicator light will turn solid blue.

Audible Prompts

Audible prompts are provided for power on / off and successful Bluetooth pairing.

Volume Buttons

1. Volume Up / Previous Track: Short press to increases volume, long press for previous track, double press to activate the voice assistant.
2. Volume down / Next track: Short press to decreases volume, long press for next track.
3. Default Volume: Default volume is medium for first use and remembers the volume setting from the last shutdown.

Power Button

1. Power on / off: Long press to power on and power off.

2. During incoming call: Long press to reject the call. Short press to answer or hang up, double press to redial.
3. Play/ Pause: Press to play or pause the audio.
4. Clear Pairing: While powering on, continue holding the power key for about 4 seconds until the red and blue lights alternate flashing to clear pairing information.

Pairing Mechanism

1. Auto-Connect: If previously paired, the headphone will automatically connect to the paired device upon startup.
2. Clear Pairing: Refer to No. 4 under the Power Button section above.

Wired Headphone Insertion

1. Headphone Inserted: Powers off automatically when a wired headphone is detected, allowing use as a wired headphone.
2. The headphone cannot be powered on if an attempt is made while a wired headphone is inserted.

Auto Power Saving

Automatically powers off after approximately 4 minutes without a Bluetooth connection.

Low Battery Alerts & Auto Power Off

A voice alert will sound four times for low battery, followed by an automatic shutdown on the fifth alert.

WARNING

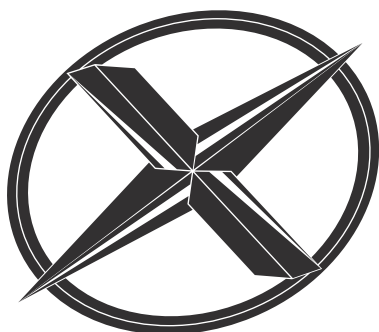

Do not change or modify this product. Do not deviate from the operation procedures specified. The company will not be liable for damages including, but not limited to injuries, death, or property damage resulting from actions that enable unintended operation.

CLEANING

Remove dust or stains with a damp cloth only. Do not use an alcohol, benzene or thinner.

CAUTION

Do not flex or over extend the headphone or damage may result. Listening at high volume levels may lead to permanent hearing damage. Never use the headphone whilst driving or operating machinery.
